

WORK EXPERIENCE

JavaScript Developer

Denkwerk GmbH 

09/2019 - present

Cologne, Germany

- Development of Web Applications using JavaScript frameworks and libraries such as React and Vue for clients and in-house projects.
- Successfully developed reusable frontend components and modules for the company's website.
- Perform code reviews and refactoring.

Frontend Developer

Phnx Studio 

08/2018 - 09/2019

Santo Domingo, DR.

- Collaborated with in-house designers to create 3 custom WordPress templates from scratch.
- Developed Rich-media products for clients such as The New York Times.

Frontend Developer

Theorem Creations 

10/2016 - 08/2018

Santo Domingo, DR.

- Successfully delivered around 13 landing pages within a tight timeframe each, for a client that used an in-house Content Management System.
- Assisted on staff training related to JavaScript technologies and dedicated client web products.
- Worked alongside Interactive Designers to deliver cross-platform products such as Web Applications, landing pages or animated banners.

Web Developer Intern

IT Futures 

06/2016 - 08/2016

Telford, UK.

- Web Development Training that lasted 3 months alongside my university IT's team on the Telford Campus.
- Engaged directly with a client to get details of specifications for their online identity.
- Create & modify WordPress Plugins, Templates & Widgets.

EDUCATION

MSc. in Computer Science

The University of Wolverhampton 

08/2015 - 08/2016

Wolverhampton, UK.

BSc. in Computer Programming & Information Systems

Farmingdale State College 

08/2011 - 08/2015

Farmingdale, NY.
